

Web Registration

STUDENT WEB FUNCTIONALITY

Students' functionality:

view/update personal information	view unofficial transcript	view account balances
Reserve courses	calculate GPA "what-ifs"	pay account online (soon)
view courses offerings	view faculty directory	

Signing On

To access Student Web, go to Campus Web (<http://campusweb.garrett.edu/>) and select Student Web under quick launch on the left. [The domain is still being assigned at the printing of this document. We are planning the address to be (<http://studentweb.garrett.edu/>) but I will confirm through the Garrett listserv.]

Use your Garrett ID number found at the bottom of your ID card.

Password codes

- Initial password code is the last 4 digits of SS#.
- On first login, the user is prompted to **change the password** code to one of his/her choice.
FIRST TIME ONLY – SET your password 4-8 characters-alpha numeric
You will need to enter the password twice.
- In the future, if user forgets the password code, a random code will be emailed to your email address on file in the registrar's office.
- If you forget your password code and no longer have access to your Garrett email address, then students will call G-ETS to update their email address and request a new random password code be emailed to the Garrett email address.

Registration

Step 1. Check for holds.

Look below your name on the welcome screen to see if you currently have any holds. Contact the appropriate office to clear holds: Business hold – Nancy Webber 866.3917

Library hold – Dianne Robinson 866.3909

Health hold – Paul Dodds 866.3927

Academic holds – Vince Eller 866.3905

All holds must be cleared in order to register.

Step 2. Click on MY SCHEDULE.

Select the term you wish to register for from the drop down menu and press change. A green button with **registration open** will appear if you are eligible to register.

The MY SCHEDULE screen shows all the courses that have been selected and which ones need to be finalized. If a course is labeled [**Crs Resvd**] **it has not been approved by your advisor.**

Step 3. You add courses to your schedule through COURSE SEARCH.

Look for courses on the COURSE SEARCH screen by typing in part of the course's title, selecting the days or times available to you, or by selecting a level of course. To view all courses, leave all fields at their default settings and press the Search button near the bottom of the screen.

If you see the course you want, click on **Add** to add it to your class schedule. If you are not sure about a course, **CLICK ON THE COURSE NUMBER** to see more information. On the next screen there will be a course description, details and a link to the syllabus (when available). If you want this course click on *add this class.*

Be careful of the warnings. If you took this class before and do not have a petition on file in the registrar's office to repeat this course, it will not count twice toward graduation. The computer does not know who has a petition on file so it lets you know it is a repeat.

Click on the schedule to see the crs resvd tag.

Step 4. Before visiting your advisor:

- If you reserved an **800-level** course and are a masters student, email the professor of the course and ask permission to take the course.
- If you want to add a **NU or cross-registration** course, come to the registrar's office for the additional forms.
- If you are adding **CPE**, see Nancy Twichell in the Field Education office for the additional forms.
- If you are adding an **independent study** course, print the form off the web or campusweb, complete with the professor involved and bring this form to the registrar's office.

Step 5. Now you are ready to make an appointment with your advisor.

- Advisors must approve all courses (this can also be done on the student web) **TO COMPLETE REGISTRATION.**
- Tuition must be paid to be enrolled. See note in the registration packet.

ADVISORS APPROVAL

If you are admitted to more than one degree program, the degree can be selected before the advisor clicks on **Aprv** by clicking on the degree code after the course number.

Only your advisor has access to your course history. When you change advisors your former advisor will not have access.

If you are in two degrees you will have two advisors but each one will only have access to the appropriate degree program.

When all of your courses have been approved by your advisor, then registration is complete.

CONGRATULATIONS

If you need assistance, help is available in the student computer lab or through the registration staff.

Abbreviations:

Days of the week: **R** = Thursday, **S** = Saturday, **U** = Sunday

Degree/Programs:
